

Classification of Periodontal Diseases

Classification of Periodontal Diseases

- ❖ Periodontal diseases classification are useful to help establish diagnosis, determine prognosis, and facilitate treatment planning.
- ❖ Different classifications of periodontal diseases have been used over the years and have been replaced as new knowledge has improved our understanding of the etiology and pathology of the diseases of the periodontium.

Classification of Periodontal Diseases

- ❖ The classification presented today and in the textbook is based on the most recent, internationally accepted, consensus opinion of the diseases and conditions affecting the tissues of the periodontium.
- ❖ The classification was presented and discussed at the 1999 International Workshop for the Classification of the Periodontal Diseases organized by the American Academy of Periodontology (AAP).

Classification of Periodontal Diseases

- ❖ **Gingival Diseases**
- ❖ **Chronic Periodontitis**
- ❖ **Aggressive Periodontitis**
- ❖ **Periodontitis as a Manifestation of Systemic Diseases**
- ❖ **Necrotizing Periodontal Diseases**
- ❖ **Abscesses of the Periodontium**
- ❖ **Periodontitis Associated with Endodontic Lesions**
- ❖ **Developmental or Acquired Deformities and Conditions**

Gingival Diseases

- ❖ Plaque-induced gingival diseases
- ❖ Non-plaque-induced gingival lesions

Chronic Periodontitis

- ❖ Localized
- ❖ Generalized

Aggressive Periodontitis

- ❖ Localized
- ❖ Generalized

Periodontitis as a Manifestation of Systemic Diseases Necrotizing Periodontal Diseases

- ❖ Necrotizing ulcerative gingivitis (NUG)
- ❖ Necrotizing ulcerative periodontitis (NUP)

Abscesses of the Periodontium

- ❖ Gingival abscess
- ❖ Periodontal abscess
- ❖ Pericoronal abscess

Periodontitis Associated with Endodontic Lesions

- ❖ Endodontic-periodontal lesion
- ❖ Periodontal-endodontic lesion
- ❖ Combined lesion

Developmental or Acquired Deformities and Conditions

- ❖ Localized tooth-related factors that predispose to plaque-induced gingival diseases or periodontitis
- ❖ Mucogingival deformities and conditions around teeth
- ❖ Mucogingival deformities and conditions on edentulous ridges
- ❖ Occlusal trauma

SUMMURY

Classification of Periodontal Diseases

- ❖ **Gingival Diseases**
- ❖ **Chronic Periodontitis**
- ❖ **Aggressive Periodontitis**
- ❖ **Periodontitis as a Manifestation of Systemic Diseases**
- ❖ **Necrotizing Periodontal Diseases**
- ❖ **Abscesses of the Periodontium**
- ❖ **Periodontitis Associated with Endodontic Lesions**
- ❖ **Developmental or Acquired Deformities and Conditions**
